

Session Schedule: Regular Week Contact Program:

Classes shall generally be held three days a week, for four hours each time (except during vacations, during which the frequency of classes may increase). The classes are usually conducted after school hours i.e. from 3:30 p.m. to 7:45 p.m. XI Course shall be **completed by November / December**. Depending upon the academic performance / excellence of the students in the previous modules, the class XII course will start as soon as after the completion of class XI course. This enables all students to cope up well with the last months' pressure of school besides giving adequate time for revision and consolidation of the knowledge and skills acquired at Toppers and required for being successful in JEE and NEET. Classroom contact hours of approx 700 hrs. (350 hrs. in XI & 350 hours in XII). However, the actual total input provided to the student is more than 800 hours.

Weekend Contact Program:

Classes shall be held only on Fridays and Saturdays or Saturdays and Sundays (except during vacations, during which the frequency of classes may increase). All three subjects shall be taught for two hours each on each day of class (of course with appropriate breaks). Students will be having classes on Saturday mornings too.

Time devoted and plan of this program is exactly the same as for the Regular Week Contact Program. Selection criteria for this batch will be tougher than that for Regular Week Batch as you need to have higher degree of motivation and ability to stay focused in the class for six hours (of course with appropriate breaks). For example, if the cut off for Regular Week Batch is 250 marks in the Admission

Test, the cut off for Weekend Batch could be 290 (i.e. selection cut off for weekend batch would be higher as compared to Regular Week batch).
